Helping You Manage Your Pipeline

----- CRM Design Tool -----

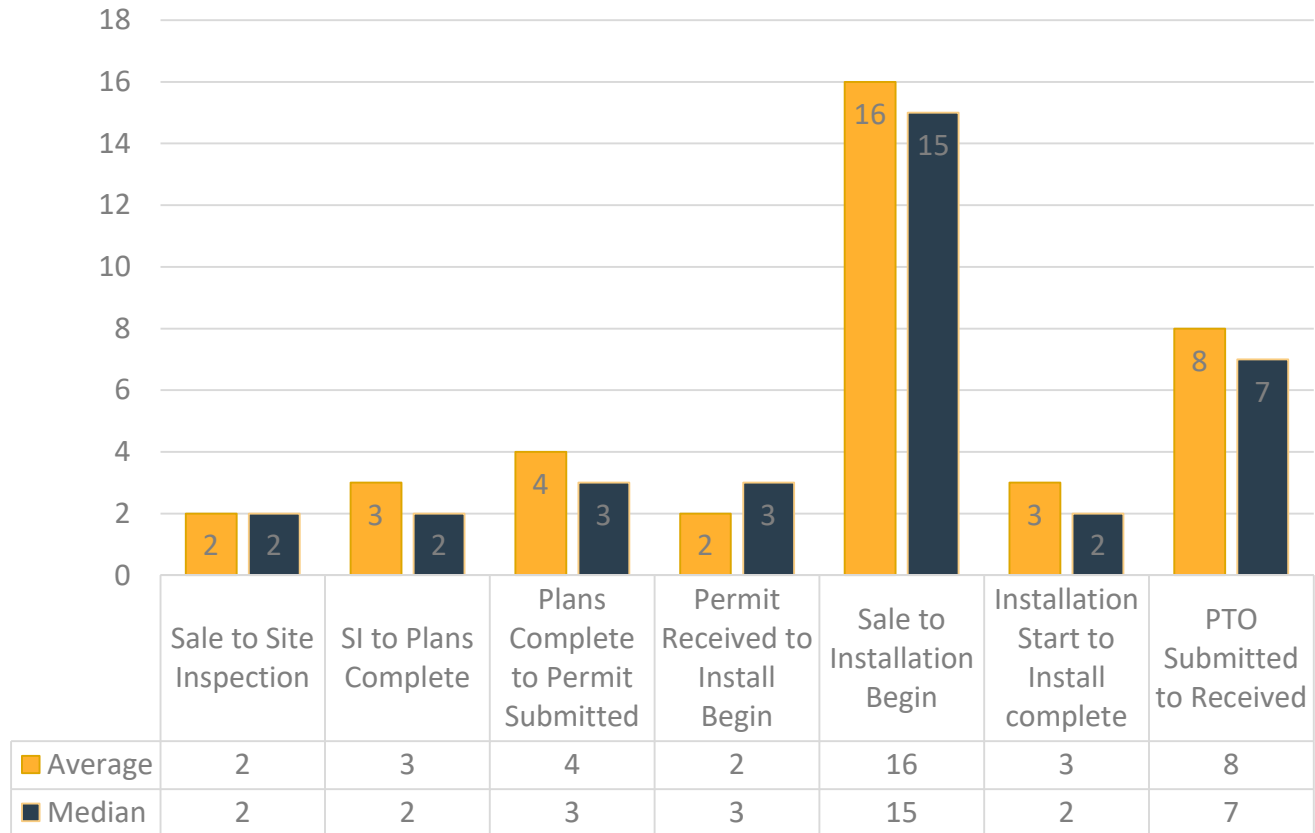

CRM: CLIENT RELATIONSHIP MANGEMENT

Our CRM system and design tool allows you to best manage your pipeline. Our system helps you track your customer from lead status to project installation. You will have access to digitally execute all of your sales contracts and create secure logins for each of your customers, so they have access to all documents online, and will be able to track their project from start to finish.

----- Duration Report -----

Speed and accuracy is how we evaluate our performance. Our current turnaround time in California is 17 days from deal acceptance to installation complete.

Mike Abadi

CEO and Co-Founder

Biography

Mike is an entrepreneur with a highly successful track record in the renewable energy sector. He began his renewable energy career working in the solar distribution and procurement side of the solar industry. Mike partnered with a solar company and successfully expanded throughout the state of California. Initially as a general manager, and later as a COO, Mike designed the company's operational process flow and established the checks and balances required for consistently executing 300 installations per month excellently. Mike's vision and leadership played a critical role in driving that company into a leading solar provider and one of the fastest growing solar companies in CA.

After a successful exit, Mike continued his passion in solar and launched Llumetec with a stronger team comprised of leading executives who share his passion for solar. With an even greater focus on construction and project management, Mike plans to build a vertically-integrated solar company that will spring-board Llumetec on a fast growth trajectory with significant visibility in the solar industry.

Robin Schnieder

COO and Co-Founder

Biography

Robin began his career in real estate development and home building business founded by his father in 1976. The business, located in Kentucky, grew steadily after Robin joined in 2002 and vastly expanded its offerings from single family homes, to office buildings, condominiums, and mixed use developments. Robin embraced the power of happy customers and referrals to drive the business. For several consecutive years, under Robin's leadership as the VP of Operations, the family business built more than 200 homes per year and earned fantastic approval ratings from its customers.

Post-2008 recession, Robin turned his focus to solar. He relocated to Los Angeles and joined American Solar Direct (ASD) as its Director of Operations. As ASD's 3rd employee, Robin drove the startup into one of the largest residential solar integrators in California. Robin grew the Operations team from a single member to 75 servicing the entire state.

In 2013, Robin joined a top solar company as VP of Operations. He transformed and streamlined its team of 80 employees into a customer-focused and highly efficient operation. Leveraging his construction and home building background, Robin further enhanced customer care by providing a variety of energy-efficient home improvement products as well as commercial solar solutions.

Robin co-founded Llumetec and is charged-up to revolutionize the solar industry by building a world-class solar company.

Angy Chin

Member and Co-Founder

Biography

Angy is an exceptional senior executive and entrepreneur with 20+ years of experience leading and supporting more than 3 dozen companies with revenue totaling more than \$4B in obtaining growth capital, improving profitability, and building great teams. Angy has led more than 10 solar and alternative energy companies including Real Goods Solar, REC/Mainstream Solar to their next levels. She has played vital roles from assisting publicly-traded and private solar companies in mergers and acquisitions, to strategic planning accelerating their companies' growth & profitability. Her industry experience includes retail, restaurant, foodservice, logistics, technology, entertainment and manufacturing, in which she cross-pollinates best practices among the industries to drive outstanding results.

Angy's stellar track record includes increasing stock price more than 8x during her management, doubling profit for 2 consecutive years, improving free cashflow by \$16.5MM within her first year, among others. Angy believes in building great teams as the foundational pillar to build a world class company. She has coached the world's leading CEOs, Presidents, Founders, and Business Owners in gaining a true competitive edge for their business and also achieve financial independence, professional and personal growth, and a more balanced and fulfilling life overall.

Angy's passion in people, environment, and solar led to her venture in co-founding Llumetec.

Amos Chin

Chief Financial Officer

Biography

Amos has 20+ years of experience holding senior international finance and accounting leadership roles from start-ups to Fortune 500 companies including Honeywell, Pennzoil Quaker State, Shell Oil, Medtronic, and Guthy-Renker. His industry experience spans across manufacturing, food and beverage, motor oil, car care products, medical device, health and beauty, direct response television and renewable energy. Amos' expertise includes strategic planning, top and bottom-line financial improvement, mergers and acquisition, due diligence, post M&A integration, international finance, and accounting.

More recently, Amos had spent a year in Japan as CFO for a multi-billion dollar US company, a year in China as CFO for a manufacturing company owned by a US private equity firm. As an executive that has managed financial performance in more than 20 countries, Amos knows what it takes to drive a company to a global level of success with diversity and innovation.

Having seen the world, Amos is passionate about environmental issues and believes we can do more to conserve resources for our next generation.

Al Diiorio

Director of Operations

Biography

Al began his career as a Designer/Drafter of Custom Residential and Commercial Properties. His attention to Construction Industry Standards from project inception, site development, to project completion gained Al a reputation in project execution.

Al's achievement in design and development offerings include single family homes, tenant improvements, mixed use and infill, local jurisdictional General Plan assistance and manufacturing facilities.

In 2012, Al served as Operations Director with a growing California solar company working with Mike Abadi. Al was instrumental in recruiting, training, and building a strong operations team to work efficiently and executive effectively. It resulted in branch office growth from 3 locations to 9 in the first year.

Al holds an OSHA Certification and several State and National Erosion Control Management certifications.
